5th Sisterlove Collection with essence & CATRICE

A brave and strong princess who embarks on adventures with her loyal friends and fights for all that is good – this is the magic of Disney, which has fascinated so many since childhood. But what would all the stories be without their infamous villains? With their evil streak and multi-faceted nature, they add an extraordinary touch of suspense to every Disney movie and make the joy of the "Happily Ever After" all the greater. The fifth Sisterlove collection by **essence & CATRICE "Disney Princess vs. Disney Villains"** is inspired by the special interaction between "good and evil". From **mid-November**, the Princesses Ariel, Snow White and Aurora will share the make-up counters with their antagonists Ursula, the Evil Queen and Maleficent.
